

Improve Your Business with a Simple, Cloud-Based Phone Solution

Get our complete, easy-to-use, unified communication system with unlimited calling and all the features your business needs with minimal capital investment and set up.

Nexus Connect Cloud Voice is a business phone system that provides a unified communication solution for small and medium size businesses. With Nexus Connect Cloud Voice you can have all the features and benefits that big business phone systems offer on a small business budget.

COST EFFICIENT, FLEXIBLE & RELIABLE

COST-EFFICIENT

Nexus Connect Cloud Voice requires very little upfront capital to install. As your business grows, your phone system can grow without costly upgrades.

FLEXIBLE

Nexus Connect Cloud Voice is housed in a secure network that unifies all your communication and lets you manage your phone through any computer.

RELIABLE

Get on the Nexus cloud where you'll have a fast and reliable connection on Nexus' fiber network. With Nexus Connect Cloud Voice the lines of communication stay open.

ONE TOUCH WEB SITE CONTROL

- Maintain all aspects of your phone system all on one intuitive website that's secure, mobile friendly and completely customizable
- Moves, adds and changes are easily performed in-house and with minimal IT training saving you time and money
- Listen to your voicemail from anywhere, self-manage, re-route calls from wherever you are for last-minute business closings

COSTS LESS TO START, AND LESS TO MAINTAIN

- Very little capital required
- NO maintenance contracts and LOW monthly fees
- Nexus does all the set up and installation and provides 24/7 local support

GO ANYWHERE AND STAY CONNECTED

- Every business owner knows that every business day is different, which is why the flexibility of the Nexus Connect cloud-based phone system is so important
- Scalable technology that remains flexible as your company grows
- Turn any laptop, smartphone, your home phone, or any other phone into your business phone and work from anywhere, anytime
