

# Google Fiber and Nexus – Your Business Services Triple Play

Google Fiber can help transform your business and The Nexus Group has the perfect complement of services to go with it. The Nexus Group is one of the first high tech companies in Nashville that have been selected to be a Google Fiber Tech Partner. As Google Fiber becomes available to businesses in the Nashville area, Nexus is ready to work with you on all of your IT and business communication needs – ensuring that they work seamlessly with Google Fiber. Not only that, Nexus can provide and install its cloud-based hosted voice and cyber security services with your Google Fiber connection that will deliver a complete solution for all of your IT and telecommunications requirements. Discover how Nexus affordable and flexible plans can help your business maximize all the benefits of Google Fiber by bringing you secure solutions to fit your budget.

## Google Fiber for Small Business

### Do more with super fast Internet

Google Fiber will offer three super fast Internet plans for small businesses in Nashville, along with static IP options for businesses that need them. You'll get upload and download speeds up to 1,000 Mbps and enough bandwidth for everyone at work and their devices. **We can check your business address to see if your business is eligible to sign up. Call or email us today at (615) 221- 4200 or sales@nxs.net.**

- **Hello faster speeds, Farewell waiting.** Super-fast downloads. Rapid uploads. Connect to all the things you need, faster.
- **Connect all your people and their devices.** Speed up your entire business. Fight over the last donut, not the bandwidth. Internet speeds Up to 1 gigabit (1,000 Mbps) upload and download speeds
- **Unlock new possibilities for your business.** HD video conferencing. Instant access to the cloud. Your favorite applications are just a click away.

## Nexus Managed Security (UTM)

### Keeping Your Business Safe

Nexus' Unified Threat Management (UTM) provides businesses with a cost-effective and simplified way of dealing with today's sophisticated, evolving security threat landscape. No need to buy multiple devices or services – Nexus' Managed Security can do it all.

- Firewall - Deep packet inspection and control of inbound and outbound internet traffic
- IPS – Our Intrusion Prevention System monitors, logs, and prevents malicious activity on your network.
- Application Control - Identify and control applications on networks and devices. Make sure your employees are only using programs that you want them to use.
- Web content filtering – Allow or block web site traffic, based on a number of configurable parameters (e.g., time of day).
- Antivirus/Antispam - Real-time protection against malicious software. Nexus Managed Security will stop all known threats.

## Digital Voice Solution

### High Quality Phone Service that Rides Over Your Google Fiber Connection

Nexus Connect Cloud Voice is a business phone system that provides a unified communication solution for small and medium size businesses. With Nexus Connect Cloud Voice you can have all the features and benefits that big business phone systems offer on a small business budget.

- **One Touch Web Site Control** - Use our intuitive website to make changes to call routing/pick up in your office that's secure, mobile friendly and completely customizable.
- **Budget Friendly** - The Nexus Connect Voice solution is very affordable. Very little capital required to get started. NO maintenance contracts and LOW monthly fees. Nexus does all the set up and installation and provides 24/7 local support. Unlimited local calling and very competitive long distance rates.
- **Go Anywhere; Stay Connected** - Our Mobile twinning service will allow calls to ring on your office phone and mobile phone – never miss a call.
